The Future Is Mine

Individual Project

CCAC – South Campus
October 19, 2011

On Wednesday, October 19, 2011, Mrs. Stanek, TFIM Advisor for Beth Center, along with Mrs. Sabatini, a parent chaperone, accompanied 21 TFIM students on a field trip to CCAC – South Campus to learn about the College and all of the benefits of attending CCAC.

We were greeted by Mike Rose, the CCAC Recruiter. We were escorted to the library's conference room. In the conference room, Mike held a short session where the students were able to introduce themselves and express their post-secondary plans.

The first place we visited was the library. Then Mike continued to take us around the campus and we visited the student gym (workout center).

As we continued on the tour, we met the director of the Student Support/Career Services Center on campus. She spoke to our students about the tutoring services and career services.

We also had the opportunity to visit the daycare center on campus where employees and students are provided reasonably-priced daycare services while at work or at school.

The tour continued by taking our students into the Registration Department where students would bring their student schedules to register for upcoming semesters. The tour ended in the Student Cafeteria where the students were able to have lunch. Overall, the students enjoyed the trip. As part of the project, all the TFIM students who went on the trip were asked to write a one-page report about their experience. It is due on November 15, 2011.
